## 2004 Alan & John Bryan Results

### Centennial Drive Bent Sprint 04 April 2004

Report from Paratutu. Alan set to run 11, John 37th. Alan set off and got round the cicanes and on his return through the second returning cicane as he entered the cicane in third gear, he accelerated around the last marker and lost it. The back of the car went side ways and the left rear wheel hit the curb and bent the wheel and the axle. As a result, the car was "out" for the day. Poor John boy did not get to run. The salvage truck was sent to pick him up..not a great day for Mum or Joanne who was waiting for Dad to return in order to take some photos...she missed out obviously....the only accident suffered that weekend was Steve Day in a Mazda who clipped the curb and dropped oil all over the track. Damage to car: Back wheel rim bent and back axle bent. To fix it: To get the wheel welded up and straightened and the axle put in a press and straightened.
